

UNIFI is the single source solution for all of your digital building content needs.

ACCESS

Cloud-based, lightning fast search and insertions

EFFICIENCY

Enhanced project collaboration inside your firm and with outside partners

LEVERAGE

Consolidated source of internal libraries and third-party content

CONTROL

Powerful management tools and analytics engine keep your content in check

FLEXIBLE

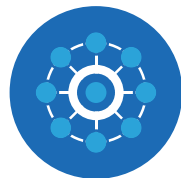

Unlimited storage, concurrent license model fits your needs

UNIFI Content Management

Source control your content to ensure everyone is working on the same page – anywhere, anytime.

- **Fast:** Search and insert in under a second, plus meta-data enhanced searches and collections.
- **Secure:** Securely share libraries with external consultants and partners for joint projects and other needs.
- **Insights:** Management and analytic tools provide controls, raise efficiency and identify areas for improvement.

UNIFI Connect

Unites high quality manufacturer content with AECO libraries & models to consolidate your content needs.

- **Consolidate:** The single source for third party allows you to spend less time searching multiple sites and platforms.
- **Confidence:** Vetted and verified content increases confidence in placing content into models.
- **Seamless:** Integrate manufacturer content into your firm-based libraries utilizing your existing workflows.
- **Current:** Receive notifications on content updates and provide feedback to manufacturers.

UNIFI Create

Content creation experts who act as an extension of your team to rapidly build content to fit your specific needs.

- **Fit:** Get content tailored to your unique product specifications and firm-specific standards.
- **Ease of Use:** Submit requests and receive content directly through the UNIFI platform.
- **Rapid:** Rapid delivery of content requests through the UNIFI platform allows your firm to focus resources more efficiently.
